PROPERTY DESCRIPTION

Inspired by seaside Renaissance-era villas, Mediterranean home plans take their primary design cues from romantic Italian and Spanish architecture. A perennial favorite in Florida and California, Mediterranean homes with a Tuscan sensibility have comfortably settled into open rolling landscapes found here in Arkansas. This stunning Mediterranean estate is situated on the beautiful Lake Hamilton in Hot Springs. Its lovely balconies with concrete railings give this home an exotic feel, while large windows allow the brilliance of nature to shine in. Its open floor plan is the perfect setting for party guests to circulate freely between gracious rooms that open onto its beautiful veranda with lush gardens and fountains, with stunning views of Lake Hamilton. You will also give high marks to the floorplan and the placement of rooms. The large master bedroom is on the main floor of the house, and the three secondary bedrooms are all on the second floor, along with another family room and partial kitchen to offer separate living for guests with plenty of privacy. Its stuccoed facing is accented with beautiful imported clay tile roofing and highlighted with several bell towers or "campanarios". It then features several charming arches, arched windows, and ornate door surrounds. This home has a warm sense of hospitality that never goes out of style.
